Student Name One (BSCS-XX-XXX)

Student Name Two (BSCS-XX-XXX)

Student Name Three (BSCS-XX-XXX)

has been approved
for The University of Lahore, Sargodha Campus

Internal Examiner:_____

External Examiner:_____

Supervisor:_____

Dr./Mr./Ms. Supervisor Name
Designation, Department of Computer Science & IT

Project Coordinator / HoD:_____
Department of Computer Science & IT, The University of Lahore, Sargodha Campus

Declaration

We, Muhammad Noman Sohail (BSCS000000), Student Name Two(BSCS-XX-XXX) and Student Name Three(BSCS-XX-XXX), hereby declare that we have produced the work presented in this Final Year Project report during the scheduled period of study at The University of Lahore, Sargodha Campus. We further declare that we have not taken any material from any source except where referenced and acknowledged, and that the amount of similarity/plagiarism detected in this report is within the range accepted by the University and the Higher Education Commission (HEC). If a violation of HEC rules on research has occurred in this report, we shall be liable to punishable action under the plagiarism rules of the HEC.

Date: _____

BSCS-XX-XXX

Student Name Two
BSCS-XX-XXX

Student Name Three
BSCS-XX-XXX

Certificate

It is certified that Student Name One(BSCS-XX-XXX), Student Name Two(BSCS-XX-XXX) and Student Name Three(BSCS-XX-XXX) have carried out all the work related to this Final Year Project (FYP-II) under my supervision at the Department of Computer Science & IT, The University of Lahore, Sargodha Campus, and that the work fulfils the requirement for the award of the BS (Computer Science) degree.

Date: _____

Supervisor:

Dr./Mr./Ms. Supervisor Name

Submitted through:

Project Coordinator / Head of Department
Department of Computer Science & IT, The University of Lahore, Sargodha Campus

DEDICATION

*D*edicated

to our parents, teachers, and everyone who supported and guided us
throughout this project.

ACKNOWLEDGEMENT

First of all, we are thankful to Allah Almighty for giving us the strength and ability to complete this Final Year Project. We would like to express our sincere gratitude to our supervisor, Dr./Mr./Ms. Supervisor Name, for the continuous support, guidance, patience, and valuable feedback throughout the course of this project.

We would also like to thank the Department of Computer Science & IT, Faculty of Information Technology, The University of Lahore, Sargodha Campus, for providing the resources and environment necessary to carry out this work.

Finally, we are grateful to our families and friends for their constant encouragement and support throughout our studies.

ABSTRACT

Your Project Title Goes Here

Write your abstract here. State the problem being addressed, why it matters, the research gap in existing work, the methodology/approach you propose, the key results obtained, and the main contribution or significance of your Final Year Project.

Chapter 1

Introduction

1.1 Background

Write the background of your project here.

1.2 Problem Statement

Write the problem statement here.

1.3 Motivation

Write the motivation here.

1.4 Research Objectives

- i. State objective one.
- ii. State objective two.
- iii. State objective three.

1.5 Scope of the Project

Write the scope and boundaries of the project here (what is included and what is explicitly out of scope).

1.6 Significance / Contribution

Summarize the main contribution(s) of this Final Year Project.

1.7 Report Organization

The remainder of this report is organized as follows: Chapter 2 presents a review of related work and identifies the research gap. Chapter 3 describes the proposed methodology and system design. Chapter 4 presents the implementation, experimental setup, results, and discussion. Chapter 5 concludes the report and outlines directions for future work.

Chapter 2

Literature Review

2.1 Introduction

Briefly introduce what this chapter covers.

2.2 Related Work

2.2.1 Theme One

Discuss relevant prior work on this theme [1].

2.2.2 Theme Two

Discuss relevant prior work on this theme.

2.3 Comparative Summary

TABLE 2.1: Summary of related work

Reference	Approach	Strengths	Limitations
[1]	–	–	–

2.4 Research Gap

Based on the discussion above, clearly articulate the gap in existing work that this project addresses.

Chapter 3

Proposed Methodology

3.1 Overview

Give a high-level overview of the proposed approach/system.

3.2 System Architecture / Research Design

FIGURE 3.1: Proposed system architecture

Describe the overall design/architecture here.

3.3 Dataset / Materials

Describe the dataset(s) or materials used.

3.4 Proposed Approach

Describe the proposed technique/algorithm/model in detail.

3.5 Tools and Technologies

List the tools, languages, frameworks, and libraries used (e.g., Python, TensorFlow, MATLAB, etc.).

3.6 Evaluation Metrics

Describe the metrics that will be used to evaluate the proposed approach (e.g., accuracy, precision/recall, F1-score, latency, etc.).

Chapter 4

Implementation, Results and Discussion

4.1 Experimental Setup

Describe the hardware/software environment used for implementation and experiments.

4.2 Implementation Details

Describe how the proposed methodology (Chapter 3) was implemented.

4.3 Results

TABLE 4.1: Example results table

Method	Metric 1	Metric 2	Metric 3
Baseline	—	—	—
Proposed	—	—	—

4.4 Discussion

Interpret the results: do they support your objectives (Section 1)? How do they compare with the related work discussed in Chapter 2?

4.5 Limitations

Discuss any limitations of the current implementation or evaluation.

Chapter 5

Conclusion and Future Work

5.1 Conclusion

Summarize the problem, approach, and key findings of the project. Restate how the objectives listed in Section 1 were met.

5.2 Future Work

Suggest possible extensions, improvements, or directions for future research building on this project.

Chapter 6
